

### **CLAN Policy on Promotion of External Events**

CLAN is approached regularly by people who would like to promote an event or issue relating to *"Forgotten Australians"* on our website or in our newsletter. Although we would like to accommodate all the requests we receive, our newsletter and website space extremely limited. This means we have to turn down most requests due to space restrictions.

Promotion of events, petitions or political action can also imply that CLAN is endorsing them or is otherwise affiliated with them. We hope you understand that CLAN must be cautious in this area and will need to turn down most requests.

CLAN also respects and diligently protects the access we have to our members and prefers to keep all communications CLAN related.

With this in mind, a request for promotion of external events can be made in writing to the CLAN Management Committee but permission is not to be expected.
